## **Re: Further procedures for your designation and future**

In order to share your great achievement to the public, please accomplish the followings:

### **1. Celebrate your designation**

Set the date and agenda of the designation ceremony and hold the ceremony.

### **2. Share your experience**

Upon the request by the certifiers, write reports on good examples and send it to Safe Community Certifying Center via the Safe Community Support Center (Japan Institution for Safe Community).

For the further details including submission of the documents above and organizing the designation ceremony, please contact to Japan Institution for Safe Communities, an International Safe Community Support Center appointed by the International Safe Community Certifying Center in Stockholm, Sweden.

### **3. Promote Safe Community programs**

For further development of your programs, please work on the challenges pointed out by the certifiers at the review and on-site evaluation. As the SC support center, Japan Institution for Safe Communities will give you consultations and support. Improvements in those issues are expected to be reported in the annual reports and the application for re-designation in five years.
